## Can I trial the service for free?

Yes, Autoaddress offers a 14-day free trial and a small amount of credit to test the full functionality of the platform.

#### What countries do you support?

We can capture addresses for over 250 countries and territories. We work with leading data providers including USPS, Royal Mail, Eircode, and TomTom to source address and location information. We have detailed building level information for over 100 countries, shown in dark blue in the map below. We update our data in-line with our data providers releases, for example our UK data is updated daily.

For countries with only city and postcode data or lacking building-level details, we opt not to provide our address Autocomplete. Unlike our competitors, we make this choice to reduce friction during address entry.

However we can still capture addresses in their local format and ensure the information is compatible with your address form via our unique Autoaddress Form feature.
